### **Franciscan Health – Indianapolis Expansion Project Moves into Final Phase**

INDIANAPOLIS - Franciscan Health – Indianapolis has announced The Massage Therapy Department has moved during their last phase of the large expansion multi-year project. As of February 4, Massage Therapy and Acupuncture Services is now located at the Women & Children’s Center. This expansion is part of the \$37 million expansion project of the facility. Patients will park in the Outpatient Center (Zone 2) parking lot and enter through Entrance 6. Massage Therapy is inside the Women’s Center at 8111 S. Emerson Ave.

Since the expansion began in December 2014, a new and larger neonatal intensive care unit (NICU) has been reborn at Franciscan Health – Indianapolis. The Level III NICU is the only unit of its specialty in south-central Indiana. Over the next year, the obstetrical care will be expanding services already offered, including 12 expanded labor and delivery rooms, eight large antepartum suites with in-room refrigerators, 34 postpartum suites and a nursery, and more. Once the Women & Children’s Services project is completed, patients will have easy access to Women’s Health Services offices, massage therapy, Maternal/Fetal Medicine, Pelvic Health Services and more.

For more information about where the Massage Therapy Department is located, service hours, or other services that are offered, call (317) 528-5865, or visit the Franciscan Health – Indianapolis website at [www.fransicanalliance.org/hospitals/indianapolis/services/massage-therapy](http://www.fransicanalliance.org/hospitals/indianapolis/services/massage-therapy).
