They make you feel comfortable and give you hope. They allow your wishes to be granted and give you the peace of mind you have been looking for. In honor of Hospice Care month, St. Francis Health is asking you to contribute towards the not-for-profit St. Francis Hospice House. You, too, can give back and help others towards a new life. For more information, visit www.franciscanhealth.org/hospicehouse. This message is brought to you by St. Francis.

When you're with St. Francis Hospice Care, you know you can find what you are looking for. St. Francis has been caring for patients in hospice for over 22 years in Indianapolis. In the United States alone, over 1 million patients receive hospice care each year. The Hospice House was built to make your friends or family members feel at ease and find their peace of mind.

As part of Hospice Care Month, the community at St. Francis would like to thank you for help you have given so far. With the need for more care facilities, we aren't done yet. We are asking for your help to make sure that anyone, no matter the financial situation, can come into our care and find comfort. Franciscan Health Foundation is offering significant naming and investment opportunities related to the Hospice House for those who contribute.

To learn more about the Hospice House, call 317-528-8446, again 317-528-8446, or visit us at to www.franciscanhealth.org/hospicehouse. This message is brought to you by St. Francis.
